# Fire Cabinets for Hose Racks

AL-SANAD fire hose racks and cabinets are engineered for superior fire safety and convenience, combining durability, accessibility, and reliability. Crafted from high-quality materials, these racks and cabinets provide secure storage for fire hoses and firefighting equipment, ensuring they are always ready for immediate use. Their ergonomic design allows for quick deployment during emergencies, while the robust construction protects hoses and accessories from damage and environmental factors. Ideal for commercial, industrial, and public spaces, AL-SANAD fire hose racks and cabinets deliver dependable performance, helping facilities maintain compliance with safety regulations while enhancing overall emergency preparedness.

## Cabinet Specifications:

- ❖ Cabinets are manufactured from Mild Steel or Stainless Steel material with a thickness of 0.9mm to 2.0mm which depends on usage or customer request.
- ❖ Back box, Door and Frame can be of different thickness and material.
- ❖ The cabinets are available with all around folded edges without any sharp edges.
- ❖ Optional Hairline or Mirror finish Stainless Steel cabinets are also available.
- ❖ Cabinets are painted with Powder Coated for elegant finish and protection from rust.
- ❖ Operation Instructions are silk screen printed in Arabic and English languages inside the cabinet.
- ❖ Cabinets are available in different size and design to meet architectural requirements.
- ❖ Cabinets can be surface mounted, recessed or semi-recessed types.
- ❖ Hinges are available with Piano type / Bush Pin Hinges / Concealed Pin Hinges as per requirement.
- ❖ Pressure Reducing Valve or Lock Shield Valve are available upon request.
- ❖ Cabinet Door handles are made with stainless steel
- ❖ 1.5"ø x 30 meter length of hose rack, one piece construction of 16 gauge steel rack
- ❖ Automatic release mechanism allows valve to be opened without release of water until last fold of hose is removed

## Semi-Automatic Hose Rack

Semi-Automatic 1.5" hose rack, one piece construction of 16 gauge steel rack. Automatic release mechanism allows valve to be opened without release of water until last fold of hose is removed.

Rack capacity is 30 meter (or can be lesser as per customer requirement) of 1.5"ø hose.
